**ALL STUDENTS AT UC SAN DIEGO UC SAN DIEGO SENATE FACULTY****SUBJECT:** Summer Employment Opportunities for Graduate Students

Every summer, UC San Diego employs many graduate students as teaching assistants, resident advisors, and educational mentors in our Summer Session courses, pre-matriculation bridge programs, and other educational offerings for undergraduates and pre-college students. These are excellent opportunities for graduate students who have gained experience as teaching assistants during the academic year to further build their teaching and mentoring skills, while earning summer income.

Looking ahead to summer 2020, we want to ensure that all interested graduate students are made aware of these opportunities as they become available. As the size and scope of our summer offerings increase, the number of positions available to graduate students is also growing; keeping up with the expansion requires that we make our communication increasingly transparent and flexible.

If you are a graduate student who is potentially interested in these summer employment opportunities, please provide us your contact information here: [https://ucsd.co1.qualtrics.com/jfe/form/SV\\_1AYdqEpJBsesgCN](https://ucsd.co1.qualtrics.com/jfe/form/SV_1AYdqEpJBsesgCN). We will be in touch with further information.

Alysson M. Satterlund  
Vice Chancellor, Student Affairs

James Antony  
Dean, The Graduate Division

John Moore,  
Dean, Undergraduate Education
